About Morningstar Indexes24

Overview

The Morningstar Global Sector Indexes are designed to facilitate accurate performance benchmarking and efficient portfolio construction across 11 sectors and 145 industries as defined by the Morningstar Global Equity Classification Structure (GECS), a single, unified sector classification scheme which categorizes companies based on their primary lines of business. These indexes are derived from the Morningstar Global Market Index, which covers stocks representing the top 97% of the investable market.

Morningstar GECS is an exhaustive and mutually exclusive taxonomy. At the foundation of the framework are 145 industry classifications, which then map to 55 industry groups. These industry groupings are bucketed into 11 sectors, each of which falls into one of three super sectors. 3 Super Sectors 11 Sectors 55 Industry Groups 145 Industries Each equity security is mapped to the industry that best reflects its largest source of revenue and income, based on public filings and Morningstar equity analyst input. Morningstar also considers business descriptions, assets, and competitors when revenue does not paint a clear picture. Industry assignments are reviewed annually or whenever there is a major corporate action.

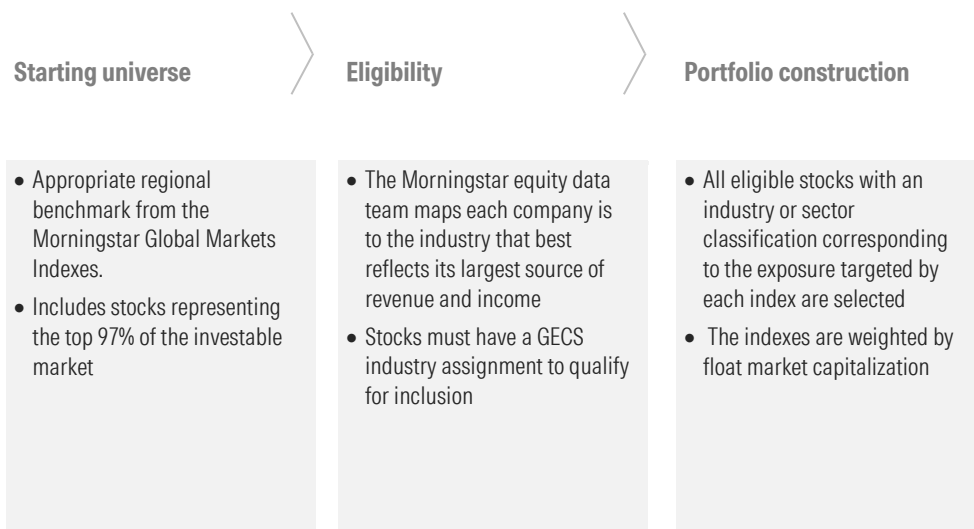

The indexes do not incorporate Environmental, Social, or Governance (ESG) criteria.

Index Inception and Performance Start Date

The index inception dates and performance start dates, when the first back-tested index values were calculated, are listed in Appendix 3, 4, 5 & 6.

Index Construction

Methodology Summary

Morningstar Global
Sector Indexes

Starting Universe

At each reconstitution, securities for the Morningstar Global Sector Indexes are derived from the Morningstar Global Markets Index (benchmark). For more details on benchmark construction, refer to the [Construction Rules for the Morningstar Global Market Index](#).

Eligibility

Stocks in the starting universe are assigned to one of the 145 industries, which are rolled up to one of 11 sectors. Each sector is further grouped into one of three super sectors:

- Cyclical Super Sector
 - Basic materials
 - Consumer cyclical
 - Financial services
 - Real estate
- Defensive Super Sector
 - Consumer defensive
 - Healthcare
 - Utilities
- Sensitive Super Sector
 - Communication services
 - Energy
 - Industrials
 - Technology

With this classification system, indexes can be built at the industry, industry group, sector, or super sector level. The industry indexes are listed in Appendix 4. For more details regarding sectors and super sectors, please refer to the [Morningstar Global Equity Classification Structure rulebook](#).

Portfolio Construction

All stocks under the relevant sector or industry are targeted for inclusion.

Number of Stocks

The number of stocks in the index is variable, subject to the selection and eligibility criteria at the time of reconstitution.

Index Weighting

These indexes are float market capitalization weighted. For more details, refer to the [Morningstar Indexes Calculation Methodology rulebook](#). The capped indexes in this family either apply a 20% cap or 5/20/50 capping. Indexes with a 20% cap, apply a 20% constituent level weighting cap. Indexes with 5/20/50 capping limit the top constituent weighting to 20% and the weightings of constituents over 5% may not sum to more than 50%. These constraints are applied at each rebalancing. Capping methodologies are outlined in Appendix 3, 4, 5, & 6.

In the event of a breach of this cap, securities above the cap are downweighted to bring the portfolio into compliance. The excess weight from these capped stocks is redistributed across the portfolio in a manner designed to preserve the relative exposure of the pre-capped weights for as many securities as possible. This may result in some securities that initial breached the cap receiving a lower weight than the cap.

Index Maintenance and Calculation

Scheduled Maintenance

The index is reconstituted, where the membership is reset, semi-annually on the third Friday of June and December. Adjustments are implemented after Friday's market close and reflected the following Monday. The market data used for reconstitution is as of the last trading day of April and October.

The index is rebalanced quarterly on the third Friday of March, June, September, and December. Adjustments are implemented after Friday's market close and reflected the following Monday. The market data used for rebalancing is as of the last trading day of February, May, August, and November.

Refer to Appendix 2 for details on reconstitution and rebalancing.

Index files are published according to the global calendar schedule, meaning index files will be published every day from Monday to Friday throughout the year, even on local market holidays.

Corporate Actions

The treatment of corporate actions will be as per the float market capitalization weighted indexes. For more details, please refer to the "Treatment for float market capitalization indexes" section in the [Morningstar Indexes Corporate Actions Methodology rulebook](#)

Index Calculation and Price Data

Details about index calculations and price data can be found in their respective rulebooks: [Morningstar Indexes Calculation Methodology](#) and [Equity Closing Prices Used for Index Calculation](#).

Methodology Review and Index Decommissioning Policy

The index methodology is continually reviewed to ensure it achieves all stated objectives. These reviews consider corporate action treatment, selection, and maintenance procedures. Subscribers to the index will be notified before any methodology changes are made. For more details, refer to the [Morningstar Index Methodology Change Policy](#).

Morningstar Indexes notifies all subscribers and stakeholders of the index that circumstances might arise that require a material change to, or a possible cessation of, the index. These circumstances are generally not within Morningstar's control and may include significant changes to the underlying market structure, inadequate access to necessary data, geo-political events, and regulatory changes. In addition, factors such as low usage or methodology convergence may result in the cessation of an index.

Because the cessation of the index or benchmark index could disrupt subscriber products that reference this index, all subscribers are encouraged to have robust fallback procedures if an index is terminated. For more details, refer to the [Morningstar Index Decommissioning Policy](#).

Data Correction and Precision

Intraday Index Data Corrections

Commercially reasonable efforts are made to ensure the accuracy of data used in real-time index calculations. If incorrect price or corporate action data affects index calculations, corrections are applied prospectively.

Index-Related Data and Divisor Corrections

Incorrect pricing and corporate action data for individual issues in the database will be corrected upon detection. In addition, an incorrect divisor of an index, if discovered within two days of its occurrence will be fixed retroactively on the day it is discovered to prevent an error from being carried forward. Commercially reasonable efforts are made to correct an older error subject to its significance and feasibility.

For more details, refer to the [Recalculation Guidelines](#).

Exceptions

While Morningstar will seek to apply the methodology as described within this document, the market environment, supervisory, legal, financial, or tax reasons may require an alternative approach to be adopted. A decision to take an alternative approach will be made by the Morningstar Index Methodology Committee, and in all instances, the application of a nonstandard process will be reported to the Morningstar Index Oversight Committee.

Appendixes

Appendix 1: Modifications to the Rulebook

Section	Description of Change	Update Date
Entire Rulebook	Rulebook updated to new version.	February 2023
Appendix 4	Added additional indexes.	June 2023
Weighting	Added description of the capping methodology	June 2023
Index Maintenance & Calculation	Updated calendar to global for US sector indexes	February 2024
Data Correction & Precision	Computational and Reporting Precision removed	November 2024
Appendix 4	Updated the table to reflect that no constituent-level weighting caps are applied for several US sector indexes from September 19, 2025, on.	April 2026

Appendix 2: Glossary

Terms	Description
Reconstitution	During each reconstitution, the steps mentioned in the index construction process are performed, resulting in membership reset.
Rebalance	During each rebalance, the weights are adjusted for updated free-float and shares outstanding data.

Appendix 3: Morningstar Super Sector Indexes

Index	Performance Start Date	Inception Date	Security Capping Methodology
Morningstar US Cyclical Super Sector Index	1991-12-31	2010-12-20	5/20/50
Morningstar US Defensive Super Sector Index	1991-12-31	2010-12-20	5/20/50
Morningstar US Sensitive Super Sector Index	1991-12-31	2010-12-20	5/20/50
Morningstar Global Cyclical Sectors Index	1998-06-30	2024-12-17	No capping applied
Morningstar Global Defensive Sectors Index	1998-06-30	2024-12-17	No capping applied
Morningstar Global Sensitive Sectors Index	1998-06-30	2024-12-17	No capping applied
Morningstar North America Cyclical Sectors Index	1998-06-30	2024-12-17	No capping applied
Morningstar North America Defensive Sectors Index	1998-06-30	2024-12-17	No capping applied
Morningstar North America Sensitive Sectors Index	1998-06-30	2024-12-17	No capping applied
Morningstar Developed Markets Europe Cyclical Sectors Index	1998-06-30	2024-12-17	No capping applied
Morningstar Developed Markets Europe Defensive Sectors Index	1998-06-30	2024-12-17	No capping applied
Morningstar Developed Markets Europe Sensitive Sectors Index	1998-06-30	2024-12-17	No capping applied
Morningstar Developed Markets Asia Pacific Cyclical Sectors Index	1998-06-30	2024-12-17	No capping applied
Morningstar Developed Markets Asia Pacific Defensive Sectors Index	1998-06-30	2024-12-17	No capping applied
Morningstar Developed Markets Asia Pacific Sensitive Sectors Index	1998-06-30	2024-12-17	No capping applied

Appendix 4: Morningstar Sector Indexes

Index	Performance Start Date	Inception Date	Capping Methodology
Morningstar Asia Basic Materials Index	1998-06-30	2019-11-11	No capping applied
Morningstar Asia Communication Services Index	1998-06-30	2019-11-11	No capping applied
Morningstar Asia Consumer Cyclical Index	1998-06-30	2019-11-11	No capping applied
Morningstar Asia Consumer Defensive Index	1998-06-30	2019-11-11	No capping applied
Morningstar Asia Energy Index	1998-06-30	2019-11-12	No capping applied
Morningstar Asia Financial Services Index	1998-06-30	2019-11-12	No capping applied
Morningstar Asia Healthcare Index	1998-06-30	2019-11-12	No capping applied
Morningstar Asia Industrials Index	1998-06-30	2019-11-12	No capping applied
Morningstar Asia Pacific Basic Materials Index	1998-06-30	2017-04-25	No capping applied
Morningstar Asia Pacific Communication Services Index	1998-06-30	2017-04-25	No capping applied
Morningstar Asia Pacific Consumer Cyclical Index	1998-06-30	2017-04-25	No capping applied
Morningstar Asia Pacific Consumer Defensive Index	1998-06-30	2017-04-25	No capping applied
Morningstar Asia Pacific Energy Index	1998-06-30	2017-04-25	No capping applied
Morningstar Asia Pacific Financial Services Index	1998-06-30	2017-04-25	No capping applied
Morningstar Asia Pacific Healthcare Index	1998-06-30	2017-04-25	No capping applied
Morningstar Asia Pacific Industrials Index	1998-06-30	2017-04-25	No capping applied
Morningstar Asia Pacific Real Estate Index	1998-06-30	2017-04-25	No capping applied
Morningstar Asia Pacific Technology Index	1998-06-30	2017-04-25	No capping applied

*Morningstar Global Consumer Sectors Index is comprised of 50% Morningstar Global Consumer Defensive Index and 50% Morningstar Global Consumer Cyclical Index

**Morningstar Energy Composite Index is comprised of developed markets companies in the developed markets energy, industries, and utilities sectors at a respective 60%, 25%, and 15% allocation.

About Morningstar Indexes

Morningstar Indexes was built to keep up with the evolving needs of investors—and to be a leading-edge advocate for them. Our rich heritage as a transparent, investor-focused leader in data and research uniquely equips us to support individuals, institutions, wealth managers, and advisors in navigating investment opportunities across major asset classes, styles, and strategies. From traditional benchmarks and unique IP-driven indexes to index design, calculation, and distribution services, our solutions span an investment landscape as diverse as investors themselves.

Morningstar Index Methodology Committee

The Morningstar Index Methodology Committee oversees all new index development, index methodology changes, and cessation of indexes for any indexes where Morningstar owns the intellectual property. This committee is also charged with ensuring that indexes align with Morningstar Research principles and values. The group comprises members of the index team with index research, product development, product management, client service, index implementation, and operation expertise who provide the first layer of governance over index design and methodology.

Morningstar Index Operations Committee

The Morningstar Index Operations Committee governs the processes, systems, and exception handling of the day-to-day management of all live indexes, including index rebalancing and reconstitution, restatements, market classification, and contingency management. The committee oversees the annual review of index methodology, as required by the European Benchmarks Regulation (“BMR”), ensuring that methodologies remain fit for purpose and continue to achieve their stated investment objectives. The group comprises members of the index team with data, operations, corporate actions, product development, index launch, client service, and index management experience who provide the first layer of governance over index operations.

Morningstar Index Oversight Committee

The Morningstar Index Oversight Committee is responsible for the index oversight function as per the requirements of the European Benchmarks Regulation (“BMR”), providing independent oversight of all aspects of the governance of benchmark administration as required by the relevant BMR. Its remit extends to all calculation and administration-related business activities of Morningstar Indexes, including administration of Morningstar-owned benchmarks as well as client-owned benchmarks and index calculation. The oversight function is part of the organizational structure of Morningstar but is separate and independent from the index business, index management, and the other index committees.
