Delivery Method, Installs, and Data Formats

Delivery

CRSP data delivery for all products is available through MOVEit Cloud at crsp.moveitcloud.com.

ZIP Installs

CRSP uses a zip process for data installation. ZIP utilities that are standard on all platforms should work to unzip the databases.

ZIP File Structure and Process

There are four separate zip files; each will have to be extracted separately. At the time the files are unzipped, make sure to set the directory path to the intended home directory (for example, in Windows C:\ , in Red Hat /home). The unzip process will extract to that directory under the subdirectory \crspdata.
